

Artist Investment Program

We have received your request for information in our Artist Investment Program.

This is a program where we help you to invest in you. We have helped Men & Women In Custody showcase their Art skills through greeting cards, or merchandise tagging. As of now we are working with artists that draw or paint.

If you are a Man or Woman In Custody that traded greeting cards you made for noodles, one would say that you used a lot of tagboard or copy paper. You would have to draw the same card over and over again. With this program you can create your masterpiece once and get paid over a million times. Your art can be printed on countless items. If your in the cell drawing portraits on tagboard or copy paper. How much more value would be added to that portrait if it were printed on a T-shirt, (with more color options the just white), a coffee mug, cell phone bag, or dogtag necklace. You do the hard work by putting it down on the medium, and we will make it a masterpiece on just about every item!!!

As of now the smallest medium for you to draw or paint your art is 4x6, the largest is 9x12.

Like it was said before, this is an investment in YOU program. Your starting investment would be \$995.00.
